**DETAILED ACTION**

***Response to Amendment***

1. This action is responsive to an amendment filed on 03/12/2010. Claims 1-20 are pending.

***Response to Arguments***

2. The arguments filed in the 03/12/2010 Remarks have been fully considered but are moot in view of the new ground(s) of rejection which is deemed appropriate to address all of the needs at this time.

***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Regarding claim 1, the limitation "receiving a voice contact including voice contact message" and "converting the voice message to voice message data in digitized, packetized form and then converting the packetized voice message data to text form using speech recognition" were not disclosed in the original specification. The original specification discloses receiving

message having contact information (see abstract). The original specification also discloses, when the message is a voice message, the voice message is packetized, and the converted to text (see paragraph 0051). However, there is no support in the original specification that a voice contact message of a voice contact has been converted to a voice message data in digitized, packetized form and then converting the packetized voice message data to text form using speech recognition.

Claims 9 and 13 are rejected for the same reasons as discussed above with respect to claim 1.

### *Conclusion*

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
